

Woodbury Lutheran Church Well-Child Policy

We ask that you keep your infant/toddler at home with any of the following symptoms and/or illnesses:

- Fever greater than 101.5
- Runny nose
- Questionable rashes
- Coughing
- Diarrhea
- Impetigo
- Active Chickenpox
- Measles
- Mumps
- Conjunctivitis (pink eye)

If your child is being treated with antibiotics, he/she should be on the drug for at least 24 hours before coming to Kids Care.

If your infant/toddler has a continually clear-runny nose or rash due to non-contagious allergies, please let us know at check-in. We realize that some symptoms hang on long after the child is no longer contagious. Remember, we want all of our infants/toddlers to remain healthy and happy.
